Urban Critical Zone Data Jam Webinar Series 2025
Webinar #2: Analyzing and Visualizing Data &
Webinar #3: Effective Communication of a Data Story

In our second and third installments of our three-part Urban Critical Zone (UCZ) Data Jam Teacher Support Webinar Series, participants will:

Webinar #2: Learn about resources designed to help educators support their students as they:

1. Determine the best way to create a visual representation of their selected data.
2. Interpret and analyze the information presented in their visualization.
3. Create a written report to communicate their data findings, which will serve as the basis of their creative component.

Webinar #3: Gain insight into different ways that they can support their students to produce creative representations of their UCZ data stories. During the webinar, participants will:

1. Explore student work from past Data Jam competitions.
2. Learn about resources available for creating unique expressions of data reporting.
